PROFESSIONAL SUMMARY

Final-year CSE-AIML undergraduate (CGPA: 8.03/10.0) and MERN Stack Developer skilled in React.js, Node.js, Express.js, and MongoDB. Experienced in building scalable full-stack applications, REST APIs, JWT authentication, real-time systems, and deployments. Solved 250+ DSA problems and contributed to GSSoC 2026.

EDUCATION

ABES Engineering College (AKTU) / B.Tech – CSE (AI/ML) Ghaziabad, UP • Sept 2023 – Present
CGPA: **8.03 / 10.0**

Jawahar Navodaya Vidyalaya, Bijnor / CBSE Bijnor, UP • 2016 – 2023
Class XII (CBSE): **87%** 2022–2023
Class X (CBSE): **99.6%** 2020–2021

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, Java, Python
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST API Design & Architecture
Databases: MongoDB, MySQL (Joins, Filtering, CRUD)
Testing & Deployment: Postman, API Testing, Vercel, Render, Git, GitHub, VS Code
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

EduAI – AI-Powered Learning & Interview Preparation Platform | [GitHub](#) • [Live Demo](#) Dec 2025 – Feb 2026
Tech Stack : MERN Stack, Google Gemini API

- Architected a full-stack AI interview preparation platform using the MERN stack and Google Gemini API, enabling context-aware question generation and real-time answer evaluation personalised to user skill level.
- Engineered 10+ production-ready REST APIs covering authentication, session management, response evaluation, and user progress analytics, with structured request validation and consistent error handling.
- Improved application security and reliability through comprehensive Postman test suites, JWT token-refresh hardening, and robust backend validation across all endpoints.

FinTrack – Financial Transaction Management System | Tech Stack | [GitHub](#) • [Live Demo](#) Sep 2025 – Nov 2025
MERN Stack, JWT, MongoDB

- Developed a full-stack financial transaction management system using the MERN stack with secure JWT authentication and role-based access control, enabling centralized management of user finances.
- Engineered RESTful APIs for transaction, category, and user account management with complete CRUD functionality, structured backend workflows, and scalable architecture.
- Implemented advanced transaction filtering, spending analytics, and MongoDB aggregation pipelines to generate category-wise financial insights and summary reports for informed decision-making.
- Optimized backend performance by reducing redundant database operations, improving query efficiency, and implementing robust error handling to enhance application reliability and responsiveness.

CERTIFICATIONS

- AWS Academy Cloud Foundations** – AWS services, cloud computing fundamentals. (AWS) [Certificate](#)
- AI Prompt Engineering** – Prompt optimization techniques for large language model applications. (IBM) [Certificate](#)
- AI Fundamentals** – Machine learning, neural networks, and core AI concepts. (IBM) [Certificate](#)
- Mission Upskill India** – Industry-focused hackathon, skill development program. (HCL-GUVI) [Certificate](#)

ACHIEVEMENTS

- GSSoC 2026 – Selected Contributor:** ([Profile](#)) Selected for open-source contribution in GSSoC 2026.
- Competitive Programming:** Solved 250+ DSA problems across LeetCode, CodeChef, and GeeksforGeeks. Achieved a **LeetCode rating of 1550+** ([Profile](#)) and demonstrated strong proficiency in DSA and problem-solving.
